1 Identification

- **Product identifier**
  - **Trade name:** Desolan NT

- **Application of the substance / the mixture**
  - Dry-cleaning
  - Additiv for solvent care

- **Details of the supplier of the safety data sheet**
  - **Manufacturer/Supplier:**
    - SEITZ GmbH
    - Gutenbergstrasse 1 - 3
    - 65830 Kriftel / Germany
    - Tel. + 49(0) 6192-9948-0
    - Fax + 49(0) 6192-9948-99
    - order@seitz24.com
    - www.seitz24.com

  - **Information department:**
    - CHEM-TEL Inc.
    - 1305 North Florida Ave
    - Tampa Florida 33602

- **Emergency telephone number:** 1-800-255-3924

2 Hazard(s) identification

- **Classification of the substance or mixture**

  ![GHS07]

  Skin Sens. 1 H317 May cause an allergic skin reaction.

- **Label elements**
  - **GHS label elements**
    - The product is classified and labeled according to the Globally Harmonized System (GHS).
  - **Hazard pictograms**

  ![GHS07]

- **Signal word** Warning

- **Hazard-determining components of labeling:**
  - 2-methyl-3(2H)-isothiazolone
  - 1,2-benzisothiazol-3(2H)-one

- **Hazard statements**
  - H317 May cause an allergic skin reaction.

- **Precautionary statements**
  - P280 Wear protective gloves.
  - P363 Wash contaminated clothing before reuse.
  - P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
  - P302+P352 IF ON SKIN: Wash with plenty of soap and water.
  - P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
Trade name: Desolan NT

- Other hazards
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.

3 Composition/information on ingredients

- Chemical characterization: Mixtures

<table>

</tbody>
</table>

- Additional information For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

- Description of first aid measures
  - General information Immediately remove any clothing soiled by the product.
  - After inhalation Supply fresh air; consult doctor in case of complaints.
  - After skin contact Immediately wash with water and soap and rinse thoroughly.
  - After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
  - After swallowing Rinse out mouth and then drink plenty of water.
    Do not induce vomiting; immediately call for medical help.
  - Information for doctor
  - Most important symptoms and effects, both acute and delayed Allergic reactions
  - Indication of any immediate medical attention and special treatment needed
    Symptomatic treatment

5 Fire-fighting measures

- Extinguishing media
  - Suitable extinguishing agents
    CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
  - For safety reasons unsuitable extinguishing agents No further relevant information available.
  - Special hazards arising from the substance or mixture
    Formation of toxic gases is possible during heating or in case of fire.
  - Advice for firefighters
  - Protective equipment:
    Wear self-contained respiratory protective device.
    Do not inhale explosion gases or combustion gases.
  - Additional information
    Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

(Contd. on page 3)
6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
  Ensure adequate ventilation
  Avoid contact with eyes and skin.
- Environmental precautions:
  Do not allow product to reach sewage system or any water course.
  Inform respective authorities in case of seepage into water course or sewage system.
- Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Send for recovery or disposal in suitable receptacles.
- Reference to other sections
  See Section 7 for information on safe handling
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and storage

- Handling
- Precautions for safe handling
  Keep away from heat and direct sunlight.
  Ensure good ventilation/exhaustion at the workplace.
  Avoid contact with eyes and skin.
- Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities
- Storage
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions:
  Protect from heat and direct sunlight.
  Store in cool, dry conditions in well sealed receptacles.
  Protect from frost.
  Time of storage: max. 18 month
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- Control parameters
- Components with limit values that require monitoring at the workplace:
  The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.
  At this time, the other constituents have no known exposure limits.

<table>
<thead>
<tr>
<th>CAS: 34590-94-8 dipropylene glycol monomethylether</th>
</tr>

</table>

(Contd. on page 4)
## Additional information:
The lists that were valid during the creation were used as basis.

### Exposure controls

#### Personal protective equipment

#### General protective and hygienic measures

The usual precautionary measures for handling chemicals should be followed.

- Keep away from foodstuffs, beverages and feed.
- Do not eat, drink, smoke or sniff while working.
- Immediately remove all soiled and contaminated clothing.
- Do not inhale gases / fumes / aerosols.
- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.

#### Breathing equipment:

Use suitable respiratory protective device in case of insufficient ventilation (exceeding the workplace limit values, formation of aerosols).

#### Protection of hands:

Protective gloves.

The glove material has to be impermeable and resistant to the product / the substance / the preparation.

#### Material of gloves

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

#### Eye protection:

Tightly sealed goggles.

#### Body protection:

Protective work clothing.

## 9 Physical and chemical properties

### Information on basic physical and chemical properties

#### General Information

- **Appearance:**
  - **Form:** Fluid
  - **Color:** Yellow
  - **Odor:** Product specific
  - **Odor threshold:** No further relevant information available.
### 44.0 pH-value (100 g/l) at 20 °C (68 °F):

- ~ 8.5

### 45.0 Change in condition

- Melting point/Melting range: undetermined
- Boiling point/Boiling range: undetermined

### 46.0 Flash point:

- Not applicable

### 47.0 Flammability (solid, gaseous)

- No further relevant information available.

### 48.0 Ignition temperature:

- No further relevant information available.

### 49.0 Decomposition temperature:

- No further relevant information available.

### 50.0 Auto igniting:

- Product is not selfigniting.

### 51.0 Danger of explosion:

- Product does not present an explosion hazard.

### 52.0 Explosion limits:

- Lower: No further relevant information available.
- Upper: No further relevant information available.
- Oxidizing properties: No further relevant information available.

### 53.0 Vapor pressure:

- No further relevant information available.

### 54.0 Density at 20 °C (68 °F):

- ~ 1.01 g/cm³ (~ 8.428 lbs/gal) (ISO 2811)
- Relative density: No further relevant information available.
- Vapor density: No further relevant information available.
- Evaporation rate: No further relevant information available.

### 55.0 Solubility in / Miscibility with

- Water: Fully miscible

### 56.0 Partition coefficient (n-octanol/water):

- No further relevant information available.

### 57.0 Viscosity:

- Dynamic: No further relevant information available.
- Kinematic: No further relevant information available.

### 58.0 Other information

- No further relevant information available.

---

### 10 Stability and reactivity

- **Reactivity**: No further relevant information available.
- **Chemical stability**
  - Stable under normal ambient conditions.
  - No decomposition if used and stored according to specifications.
- **Possibility of hazardous reactions**: No dangerous reactions known
- **Conditions to avoid**: No dangerous reactions known
- **Incompatible materials**:
  - Acids
  - Lyes
  - Strong oxidizing agents
- **Hazardous decomposition products**: No dangerous decomposition products known
11 Toxicological information

- Information on toxicological effects

  - Acute toxicity:

    - LD/LC50 values that are relevant for classification:

      | CAS: 34590-94-8 dipropylene glycol monomethylether |
      | Oral | LD50 | > 5000 mg/kg (rat) |
      | Dermal | LD50 | 9500 mg/kg (rabbit) |
      | Inhalative | LC50 (7h) | 3.35 mg/l (rat) |

    | CAS: 2682-20-4 2-methyl-3(2H)-isothiazolone |
    | Oral | LD50 | 100 mg/kg (ATE) |
    | Dermal | LD50 | 285 mg/kg (rabbit) |
    | Inhalative | LC50 (4h) | 0.5 mg/l (ATE) |

    | CAS: 2634-33-5 1,2-benzisothiazol-3(2H)-one |
    | Oral | LD50 | 1020 mg/kg (rat) |
    | Inhalative | LC50 (4h) | 0.5 mg/l (ATE) |

  - on the skin: Based on available data, the classification criteria are not met.
  - on the eye: Based on available data, the classification criteria are not met.
  - Sensitization: May cause an allergic skin reaction.
  - Additional toxicological information:

    - Carcinogenic categories

      - IARC (International Agency for Research on Cancer)
        None of the ingredients is listed.
      - NTP (National Toxicology Program)
        None of the ingredients is listed.
      - OSHA-Ca (Occupational Safety & Health Administration)
        None of the ingredients is listed.

12 Ecological information

- Toxicity

  | CAS: 34590-94-8 dipropylene glycol monomethylether |
  | EC50 | > 969 mg/l (Aquatic plants, algae) (96 h; Scenedesmus capricornutum) |
  | 1919 mg/l (Aquatic invertebrates) (48 h; Daphnia) |
  | LC50 | > 10000 mg/l (Fish) (96 h; Pimephales promelas) |

  | CAS: 2682-20-4 2-methyl-3(2H)-isothiazolone |
  | LC50 (96h) | 0.19 mg/l (Fish) (Gestis) |
  | LC50 (48h) | 0.056 mg/l (Aquatic invertebrates) (Gestis) |

  | CAS: 2634-33-5 1,2-benzisothiazol-3(2H)-one |
  | LC50 (96h) | 10 mg/l (Fish) (Gestis) |
  | LC50 (48h) | 4.4 mg/l (Aquatic invertebrates) (Gestis) |

  - Persistence and degradability No further relevant information available.
Trade name: Desolan NT

- Behavior in environmental systems:
  - Bioaccumulative potential: No further relevant information available.
  - Mobility in soil: No further relevant information available.

- Additional ecological information:
  - General notes:
    Do not allow product to reach ground water, water course or sewage system.
    Avoid transfer into the environment.
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.
  - Other adverse effects: No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation:
    Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste management facility. Recovered products may be reused, reprocessed or incinerated or must be treated in a permitted hazardous waste management facility. It is your duty to dispose of the chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.

14 Transport information

- UN-Number
  - DOT, ADR, ADN, IMDG, IATA: Void
- UN proper shipping name
  - DOT, ADR, ADN, IMDG, IATA: Void
- Transport hazard class(es)
  - DOT, ADR, ADN, IMDG, IATA: Void
  - Class: Void
- Packing group
  - DOT, ADR, IMDG, IATA: Void
- Environmental hazards:
  - Not applicable.
- Special precautions for user
  - Not applicable.
- Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
  - Not applicable.
- Transport/Additional information:
  - Not dangerous according to the above specifications.
- UN "Model Regulation": Void
## 15 Regulatory information

- **Canadian substance lists**
  - Canadian domestic substance list (DSL):
    
    | All ingredients are listed. |
  - Canadian ingredient disclosure list (limit 0.1%):
    
    | None of the ingredients is listed. |
  - Canadian ingredient disclosure list (limit 1%):
    
    | CAS: 34590-94-8 dipropylene glycol monomethylether |

- **Sara**
  - Section 355 (extremely hazardous substances):
    
    | None of the ingredients is listed. |
  - Section 313 (specific toxic chemical listings):
    
    | None of the ingredients is listed. |
  - TSCA (Toxic Substances Control Act):
    
    | All ingredients are listed. |

- **Proposition 65**
  - Chemicals known to cause cancer:
    
    | None of the ingredients is listed. |
  - Chemicals known to cause reproductive toxicity for females:
    
    | None of the ingredients is listed. |
  - Chemicals known to cause reproductive toxicity for males:
    
    | None of the ingredients is listed. |
  - Chemicals known to cause developmental toxicity:
    
    | None of the ingredients is listed. |
  - New Jersey Right-to-Know List:
    
    | CAS: 34590-94-8 dipropylene glycol monomethylether |
  - New Jersey Special Hazardous Substance List:
    
    | None of the ingredients is listed. |

- **Pennsylvania Right-to-Know List**
  
  | CAS: 34590-94-8 dipropylene glycol monomethylether |

- **EPA (Environmental Protection Agency)**
  
  | None of the ingredients is listed. |

- **TLV (Threshold Limit Value established by ACGIH)**
  
  | None of the ingredients is listed. |

- **NIOSH-Ca (National Institute for Occupational Safety and Health)**
  
  | None of the ingredients is listed. |

- **National regulations**
  
- **Other regulations, limitations and prohibitive regulations**
  
- **Please note:**
  
  The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied is given. Regulatory requirements
are subject to change and may differ from one location to another. It is the buyer's responsibility to ensure that its activities comply with Federal, State or provincial, and local laws. The following specific information is made for the purpose of complying with numerous laws and regulations.

- **Other information:** The product has been designed for professional use only.

### 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- **Date of preparation / last revision** 03/15/2017 / 2
- **Abbreviations and acronyms:**
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - DOT: US Department of Transportation
  - IATA: International Air Transport Association
  - ACGIH: American Conference of Governmental Industrial Hygienists
  - EINECS: European Inventory of Existing Commercial Chemical Substances
  - ELINCS: European List of Notified Chemical Substances
  - CAS: Chemical Abstracts Service (division of the American Chemical Society)
  - LC₅₀: Lethal concentration, 50 percent
  - LD₅₀: Lethal dose, 50 percent
  - PBT: Persistent, Bioaccumulative and Toxic
  - vPvB: very Persistent and very Bioaccumulative
  - NIOSH: National Institute for Occupational Safety
  - OSHA: Occupational Safety & Health
  - TLV: Threshold Limit Value
  - PEL: Permissible Exposure Limit
  - REL: Recommended Exposure Limit
  - Skin Sens. 1: Skin sensitisation – Category 1

- * Data compared to the previous version altered.
