1 Identification

- Product identifier
- Trade name: Lacol
- Application of the substance / the mixture
  Dry-cleaning
  Spotting agent, stain remover
- Details of the supplier of the safety data sheet
  Manufacturer/Supplier:
  SEITZ GmbH
  Gutenbergstrasse 1 - 3
  65830 Kriftel / Germany
  Tel. + 49(0) 6192-9948-0
  Fax + 49(0) 6192-9948-99
  order@seitz24.com
  www.seitz24.com
- Information department:
  CHEM-TEL Inc.
  1305 North Florida Ave
  Tampa Florida 33602
- Emergency telephone number: 1-800-255-3924 (24-hour Service)

2 Hazard(s) identification

- Classification of the substance or mixture
  - GHS02 Flame
    Flam. Liq. 3 H226 Flammable liquid and vapor.
  - GHS05 Corrosion
    Eye Dam. 1 H318 Causes serious eye damage.
  - GHS07
    Skin Irrit. 2 H315 Causes skin irritation.
    STOT SE 3 H336 May cause drowsiness or dizziness.
- Label elements
- GHS label elements
  The product is classified and labeled according to the Globally Harmonized System (GHS).
Hazard pictograms

GHS02  GHS05  GHS07

Signal word Danger

Hazard-determining components of labeling:
cyclohexanone
acetic acid n-butylester
benzenesulfonic acid, C10-13-alkyl derivs., sodium salts

Hazard statements
H226 Flammable liquid and vapor.
H315 Causes skin irritation.
H318 Causes serious eye damage.
H336 May cause drowsiness or dizziness.

Precautionary statements
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P261 Avoid breathing mist/vapours/spray.
P280 Wear protective gloves / eye protection.
P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a poison center/doctor.
P403+P233 Store in a well-ventilated place. Keep container tightly closed.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

3 Composition/information on ingredients

Chemical characterization: Mixtures

Additional information For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

Description of first aid measures
General information
Remove casualties from exposure.
Keep unprotected persons away.
Trade name: Lacol

Immediately remove any clothing soiled by the product.
- **After inhalation**
  Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.
  In case of unconsciousness place patient stably in side position for transportation.
- **After skin contact**
  Immediately rinse with water.
  If skin irritation continues, consult a doctor.
- **After eye contact**
  Rinse opened eye for several minutes under running water. Then consult a doctor.
- **After swallowing**
  Rinse out mouth and then drink plenty of water.
  Do not induce vomiting; immediately call for medical help.
- **Information for doctor**
  Most important symptoms and effects, both acute and delayed
  Skin irritation
  Eye damage
  Headache
  Vertigo
  Nausea
  Dizziness
  Unconsciousness
- **Indication of any immediate medical attention and special treatment needed**
  Symptomatic treatment

---

### 5 Fire-fighting measures

- **Extinguishing media**
  Suitable extinguishing agents
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- **For safety reasons unsuitable extinguishing agents**
  Water with full jet.
- **Special hazards arising from the substance or mixture**
  Formation of toxic gases is possible during heating or in case of fire.
- **Advice for firefighters**
  **Protective equipment:**
  Do not inhale explosion gases or combustion gases.
  Wear self-contained respiratory protective device.
- **Additional information**
  Cool endangered receptacles with water spray.
  Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

---

### 6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  Wear protective equipment. Keep unprotected persons away.
  Avoid contact with eyes and skin.
  Keep away from ignition sources
Ensure adequate ventilation
Do not breathe gases/ vapours.
- **Environmental precautions:** Do not allow to enter sewers/ surface or ground water.
- **Methods and material for containment and cleaning up:**
  Absorb with liquid-binding material (sand, diatomite)
  Send for recovery or disposal in suitable receptacles.
- **Reference to other sections**
  See Section 7 for information on safe handling
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

### 7 Handling and storage

- **Handling**
  - **Precautions for safe handling**
    Keep away from heat and direct sunlight.
    Avoid contact with eyes and skin.
    Ensure good ventilation/exhaustion at the workplace.
    Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air).
    Prevent formation of aerosols.
  - **Information about protection against explosions and fires:**
    Keep ignition sources away - Do not smoke.
    Formation of explosive vapour- / air mixture possible.
    Protect against electrostatic charges.
    Flammable gas-air mixtures may be formed in empty receptacles.
- **Conditions for safe storage, including any incompatibilities**
- **Storage**
  - **Requirements to be met by storerooms and receptacles:**
    Store only in the original receptacle.
    Prevent any seepage into the ground.
  - **Information about storage in one common storage facility:**
    Store away from foodstuffs.
    Store away from oxidizing agents.
    Do not store together with alkalis (caustic solutions).
  - **Further information about storage conditions:**
    Protect from heat and direct sunlight.
    Store in cool, dry conditions in well sealed receptacles.
    Store receptacle in a well ventilated area.
    Protect from frost.
    Time of storage: max. 12 month
- **Specific end use(s)** Dry-cleaning

### 8 Exposure controls/personal protection

- **Additional information about design of technical systems:** No further data; see item 7.

(Contd. on page 5)
Safety Data Sheet
acc. to OSHA HCS

</table>

- **Additional information:** The lists that were valid during the creation were used as basis.

- **Exposure controls**
- **Personal protective equipment**
- **General protective and hygienic measures**
  The usual precautionary measures for handling chemicals should be followed.
  Keep away from foodstuffs, beverages and feed.
Safety Data Sheet  
acc. to OSHA HCS

Trade name: Lacol

Immediately remove all soiled and contaminated clothing  
Do not eat, drink, smoke or sniff while working.  
Wash hands before breaks and at the end of work.  
Avoid contact with the eyes and skin.  
Do not inhale gases / fumes / aerosols.

- **Breathing equipment:**  
  Ensure good ventilation/exhaustion at the workplace.  
  Use suitable respiratory protective device in case of insufficient ventilation (exceeding the workplace limit values, formation of aerosols).

- **Protection of hands:**  
  Solvent resistant gloves  
  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

- **Material of gloves**  
  PE/EVAL/PE  
  Butyl rubber, BR  
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- **Penetration time of glove material**  
  The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

- **Eye protection:** Tightly sealed goggles.

- **Body protection:** Solvent resistant protective clothing

---

**9 Physical and chemical properties**

- **Information on basic physical and chemical properties**
- **General Information**
  - Appearance:
    - Form: Fluid
    - Color: Yellow
    - Odor: Solvent-like
    - Odor threshold: No further relevant information available.
  - **pH-value (100 g/l) at 20 °C (68 °F):** ~ 7,0

- **Change in condition**
  - Melting point/Melting range: undetermined
  - Boiling point/Boiling range: undetermined

- **Flash point:** 36 °C (96.8 °F) (ASTM D93 c.c.)
- **Flammability (solid, gaseous):** No further relevant information available.
- **Ignition temperature:** No further relevant information available.
- **Decomposition temperature:** No further relevant information available.
46.0.3

· Auto igniting: Product is not self-igniting.

· Danger of explosion: Product is not explosive. However, formation of explosive air/vapor mixtures are possible.

· Explosion limits:
  Lower: No further relevant information available.
  Upper: No further relevant information available.

· Oxidizing properties: No further relevant information available.

· Vapor pressure: No further relevant information available.

· Density at 20 °C (68 °F): ~ 0.97 g/cm³ (ISO 2811)
  · Relative density: No further relevant information available.
  · Vapor density: No further relevant information available.
  · Evaporation rate: No further relevant information available.

· Solubility in / Miscibility with Water: Not miscible or difficult to mix.

· Partition coefficient (n-octanol/water): No further relevant information available.

· Viscosity:
  dynamic: No further relevant information available.
  kinematic: No further relevant information available.

· Other information: No further relevant information available.

10 Stability and reactivity

· Reactivity: No further relevant information available.

· Chemical stability
  Stable under normal ambient conditions.
  No decomposition if used and stored according to specifications.

· Possibility of hazardous reactions: Forms flammable gases / fumes

· Conditions to avoid
  Protect from heat and direct sunlight.
  Keep away from ignition sources.

· Incompatible materials: Strong oxidizing agents

· Hazardous decomposition products: None if used as directed.

11 Toxicological information

· Information on toxicological effects

· Acute toxicity

· LD/LC50 values that are relevant for classification:

  ATE (Acute Toxicity Estimate)
<table>

- Skin corrosion/irritation Causes skin irritation.
- Serious eye damage/irritation Causes serious eye damage.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Additional toxicological information: Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.
- Carcinogenic categories
  - IARC (International Agency for Research on Cancer)
    - CAS: 108-94-1 cyclohexanone 3
  - NTP (National Toxicology Program)
    - None of the ingredients is listed.
  - OSHA-Ca (Occupational Safety & Health Administration)
    - None of the ingredients is listed.
- CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)
  - Germ cell mutagenicity Based on available data, the classification criteria are not met.
  - Carcinogenicity Based on available data, the classification criteria are not met.
  - Reproductive toxicity Based on available data, the classification criteria are not met.
  - Specific target organ toxicity – single exposure Based on available data, the classification criteria are not met.
  - Specific target organ toxicity – repeated exposure Based on available data, the classification criteria are not met.
  - Aspiration hazard Based on available data, the classification criteria are not met.

- **Persistence and degradability** No further relevant information available.
- **Behavior in environmental systems:**
- **Bioaccumulative potential** No further relevant information available.
- **Mobility in soil** No further relevant information available.
- **Additional ecological information:**
- **General notes:**
  Do not allow product to reach ground water, water course or sewage system, even in small quantities.
  The surfactant(s) contained in this preparation complies (comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.
- **Results of PBT and vPvB assessment**
  - **PBT:** Not applicable.
  - **vPvB:** Not applicable.
- **Other adverse effects** No further relevant information available.
13 Disposal considerations

- Waste treatment methods
- **Recommendation:**
  Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste management facility. Recovered products may be reused, reprocessed or incinerated or must be treated in a permitted hazardous waste management facility. It is your duty to dispose of the chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.
